

The Following Safety Measures Apply in this Shooting Range

Between shots and whenever any person has reason to step into a shooting lane:

- All shooting activity is to halt
- Ensure rifles are placed carefully down on the counter
- Rifle breaches are to be set in a visibly 'open' state
- The rifle is then to remain untouched / unhandled
- No pellets are to be loaded during this time

Take a breath or two and relax!

The above measures remain in force until the shooting lane is clear of people
